Eastside Oncology/ Hematology

SWEDISH
CANCER INSTITUTE

Cancer care at Swedish is designed to meet all your needs, from diagnostic testing and treatment to managing symptoms and side effects as well as providing follow-up services you may need in your home.

At Swedish Eastside Oncology/Hematology, we believe that consistent and timely communication is extremely important to our patients and between all professionals involved in your treatment team. We have an onsite infusion suite staffed with oncology trained nurses and pharmacists who work together to provide excellent, comprehensive treatment.

Our clinic is part of the Swedish Cancer Institute, a team that includes the region's best medical oncologists, hematologists, radiation oncologists and surgeons.

Specialty Procedures

- Chemotherapy
- Hormone therapy
- Biological therapy
- Breast assessment
- Antibiotic and fluid infusions
- Iron and immunoglobulin infusions
- Clinical trials

Meet Our Staff

Kenneth G. Kraemer, M.D.

Dr. Kraemer is a general medical oncologist and hematologist who provides care to patients with cancer and blood disorders. He is board certified in medical oncology, hospice and palliative medicine, and internal medicine. Dr. Kraemer is on the Board of Trustees of the Washington State Medical Oncology Society and is a member of the American Academy of Hospice and Palliative Medicine, and the American Society of Clinical Oncology. He received his medical degree from the University of Michigan, completed his residency at Virginia Mason Medical Center and fellowship at the University of Washington.

Jill M. Cooper, MN, ARNP

Ms. Cooper's special interests include the diagnosis, care of, and long-term care of breast cancer survivors, genetic and familial cancer syndromes and surveillance, side effect management in chemotherapy patients, and treatment of anemia. She received her Master in Nursing and Advanced Registered Nurse Practitioner degrees from the University of Washington.
