

Pediatric Therapy Services at Swedish Medical Center

Swedish Pediatric Therapy Services offers a complete spectrum of physical, occupational and speech therapy services in a spacious, stimulating facility especially designed for children ages newborn to teen.

Highly skilled and experienced pediatric therapists are dedicated to providing the best possible treatment for children with special needs. Our physical and occupational therapists and speech-language pathologists work with children to help them recover from serious injuries or overcome some of the complications of long-term disabilities, including those from:

- Autism
- Brachial plexus injury
- Communication delays
- Developmental delays
- Feeding difficulties
- Hand injuries
- Premature birth
- Oral motor deficits
- Orthopedic conditions
- Sensory processing disorders
- Sensory motor impairments
- Sports injuries

The following therapeutic services are provided:

- Augmentative communication
- Feeding therapy
- Gait analysis/training
- Handwriting
- Musculoskeletal therapy
- Neurodevelopmental therapy
- Oral-motor interventions
- Postural alignment
- Prompt training
- Sensory integration
- Splinting

For more information or to schedule an appointment, please call (206) 386-3592.
