An acute care hospital may not be the appropriate setting for all reproductive health services listed below. Some reproductive services are most appropriately available in outpatient settings such as a physician office or clinic, depending on the specific patient circumstances.

The following reproductive health services are generally available at the above listed hospital:

**Abortion services**
- □ Medication abortion
- √ Referrals for abortion
- □ Surgical abortion

**Contraception services**
- √ Birth control: provision of the full range of Food and Drug Administration-approved methods including intrauterine devices, pills, rings, patches, implants, etc.
- √ Contraceptive counseling
- √ Contraceptive pharmacy dispenses contraception
- √ Removal of contraceptive devices
- √ Tubal ligations
- □ Vasectomies

**Emergency contraception services**
- √ Emergency contraception - sexual assault
- √ Emergency contraception - no sexual assault

**Infertility services**
- √ Counseling
- √ Infertility testing and diagnosis
- □ Infertility treatments including but not limited to in vitro fertilization

**Other related services**
- √ Human immunodeficiency virus (HIV) testing
- √ Human immunodeficiency virus (HIV) treatment
- √ Pre-exposure prophylaxis (PrEP), post-exposure prophylaxis (PEP), prescriptions, and related counseling
- √ Sexually transmitted disease testing and treatment
- √ Treatment of miscarriages and ectopic pregnancies

**Pregnancy-related services**
- √ Counseling
- √ Genetic testing
- □ Labor and delivery
- □ Neonatal intensive care unit
- √ Prenatal care
- √ Postnatal care
- √ Ultrasound

**Comments; limitations on services; other services**

We provide patients with access to reproductive health services by providing referrals to independent providers in the community.
