HISTORY

Swedish Health Services was founded more than a century ago by a physician and Swedish immigrant, Nils Johanson, M.D., with the generosity of members of our community who wanted to provide our region with the best medical care possible. What started as a 24-bed facility is now the largest not-for-profit health care provider in the greater Seattle area.

As Swedish Health Services has evolved and affiliated with Providence to become Providence Swedish, our vision to provide the highest-quality health care for the best value remains unchanged. In the past two years, more than \$104 million in donor generosity fueled progress across Providence Swedish — advancing cancer breakthroughs, heart and brain health, women's and children's services, nursing education, health equity, and more, all to expand access and improve care for our communities.

SWEDISH HEALTH SERVICES TODAY

Swedish Health Services is comprised of five hospital campuses (First Hill, Cherry Hill, Ballard, Edmonds and Issaquah); ambulatory care centers in Redmond and Mill Creek; and Swedish Medical Group, a network of 142 primary and specialty care locations throughout the greater Puget Sound area.

Our commitment to improving the health of our region extends beyond patient care. Whether through physician clinics, health education, research and innovation or other means of outreach, we are committed to caring for the people in our region and beyond.

2025 FACTS AND FIGURES

- 1,571 licensed beds
- 14,401 employees
- 3,905 physicians, APCs and allied health professionals
