

Security Badge Access

Security access badges are used to verify students have been cleared to be on campus and provide access to areas with badge readers. They can also be utilized to access parking garages.

Security access badges do not have pictures on them but will be assigned to each student individually and must be distributed likewise. All students and instructors must wear their school issued photo ID along with the Swedish security access badge.

Instructors may pick up access badges from a Swedish security office; a government issued photo ID will be required for pick up. Arrangements can be made to have security access badges brought to in-person orientation. Please let Julie Baxter know if you are going to pick up your badges or would like them to be distributed at the in-person orientation.

Upon completion of the clinical rotation, please have your students keep the badges for future quarters. Graduating students can return security access badges to the Swedish security office on the campus they are currently placed on.
