

# WE ASK BECAUSE WE CARE.

Our vision, *Health for a Better World*, is driven by a belief that health is a human right. Every person deserves a chance to live a healthy life.

We know in order to live up to our values — *Compassion, Justice, Excellence, Dignity, Integrity and Safety* — and value each member of our diverse community, we must commit to safe and inclusive language.

**Asking our patients questions about themselves helps us provide the highest-quality care and build relationships.**

*Note: The below questions are all optional and are kept confidential. We do ask for legal name and legal sex for insurance purposes and to ensure we provide care to the correct person. Please feel free to share your responses to these questions with your Swedish care team during a visit or respond to some of these questions in MyChart.*
