

## **BILLING INFORMATION**

We participate with most local and many national insurance plans. However it is your responsibility to understand whether your insurance has limits on the doctors you can see, or the services you can receive. If you have concerns about your insurance coverage or what you will be responsible for call your insurance company directly. You will be responsible for out-of-network rates.

If you provide complete and accurate information about your insurance, we will submit claims to your insurance carrier and receive payments for services. Depending on your insurance coverage, you may be responsible for co-payments, co-insurance, or other deductible amounts. This amount is due upon billing.

You will receive separate bills from Swedish Medical Center and the physician. In addition, if you have a biopsy procedure where a sample is sent to the pathology lab, additional bills will come from the pathologist who interprets those samples.

As a part of our strong commitment to ensuring access to medical care, Swedish offers financial assistance for medically necessary services, even if you have medical insurance. Eligibility is determined based on federal poverty guidelines, family size and other criteria. Applications are available at any registration area, or apply at any time by clicking [here](#).

Once again, thank you for choosing Swedish for your imaging needs. Please let us know if you have any questions or concerns. For more information on billing or to pay your bill, [click here](#).
