“In planning for serious illness, it always seems too soon, until it’s too late.”

– Ira Byock, M.D.
Why every adult should have an advance directive

Congratulations on taking the first step toward completing an advance directive.

This document allows you to name someone to speak for you if you are unable to speak for yourself. This person will make sure your wishes are honored.

When we turn 16, we can legally drive. When we turn 21, we can legally drink alcohol. And when we turn 18, we can enlist in the military, as well as choose what we would want regarding our health care. All of us could face serious illness or injury at any age. An advance directive can ease the stress on family members and loved ones if they are faced with critical decisions about your care.

Swedish believes everyone 18 and older should have an advance directive, which provides this key information for your doctor and family:

- It says what kind of medical treatment you want.
- It says who can make decisions for you if you are unable to make them yourself.

**PEACE OF MIND**

Advance directives can be simple or detailed. This packet allows you to decide. You can simply name someone to make decisions on your behalf. Or you can include more instructions about treatments such as cardiopulmonary resuscitation (CPR), mechanical ventilation (breathing machine), or insertion of a feeding tube.

Know that if you change your mind about a decision, you can revise your advance directive at any time.

It’s never too soon to have a conversation with your family. If you want care that takes into consideration your values, preferences and priorities, then an advance directive can help.

The following information will help you and the people you love make informed and shared health care decisions for the future.

**Download this tool kit at Swedish.org/AD.**
Choose your health care representative

Name someone you trust to make health care choices for you if you are unable to make your own decisions.

Your health care representative may be a family member or friend who:

- Is 18 or older
- Knows you well
- Is willing to accept this responsibility
- Is able to make difficult decisions based on your wishes
- Will communicate effectively with health care providers and family members the information that you provide in this packet

Your representative cannot be your doctor or someone who works at the hospital or clinic where you are receiving care, unless he or she is a family member.

Your health care representative can:

- Decide where you will receive care
- Select or dismiss health care providers
- Agree to or say no to medications, tests and treatments
- Say what happens to your body and organs after you die
- Take legal action needed to carry out your wishes

Give a copy of your signed advance directive to your health care representative, family, friends and medical providers.

“I gave my advance directive to my family as well as my health care team, so if ever I could not speak for myself, my family would know how to help guide my care.”

– Rebekah M.
Your health care representative’s authority

Your health care representative can help make the following decisions for various life-support treatments:

**CPR OR CARDIOPULMONARY RESUSCITATION**
This may involve:
- Pressing hard on your chest to keep your blood pumping
- Electrical shocks to jump-start your heart
- Medicines in your veins

**BREATHING MACHINE OR VENTILATOR**
A machine that pumps air into your lungs and breathes for you (While on a ventilator, you are unable to talk or eat.)

**DIALYSIS**
A machine that cleans your blood if your kidneys stop working

**FEEDING TUBE**
A tube used to feed you if you cannot swallow (The tube may be passed down your throat to your stomach or surgically inserted through your abdomen to your stomach.)

**BLOOD TRANSFUSIONS**
The process of giving you donated blood, usually through an IV line into a vein in your arm

**END-OF-LIFE CARE**
If you might die soon, your health care representative can:
- Call a spiritual leader or advisor
- Decide if you die at home or in the hospital
- Decide whether an autopsy will be performed
- Decide about organ donation
- Decide where you should be buried or cremated

Write down any decisions you do not want your health care representative to make:

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

Name ___________________________ Date of Birth ___________________________
Name your health care representative

I want this person to make my medical decisions if I cannot make my own:

<table>
<thead>
<tr>
<th>Full name</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Address</th>
</tr>

<td></td>
</tr>
</tbody>
</table>

Put an X next to the sentence you agree with:

☐ My health care representative will make decisions for me **only** after I become unable to make my own decisions.

OR

☐ My health care representative can make decisions for me right now, after I sign this form.

How do you want your health care representative to follow your medical wishes? Put an X next to the **one** sentence you most agree with:

☐ **Total flexibility:** It is OK for my health care representative to change any of my medical decisions if, after talking with my doctors, he/she thinks it is best for me at that time.

☐ **Some flexibility:** It is OK for my health care representative to change some of my medical decisions if, after talking with my doctors, he/she thinks it is best for me at that time.

☐ **Minimal flexibility:** I want my health care representative to follow my medical wishes as closely as possible. Please respect my decisions, even if doctors recommend otherwise.

These are some of my wishes I particularly want respected:

Name

Date of Birth
Make your health care choices

Think about what makes your life worth living. Put an X next to all the sentences you agree with.

☐ My life is always worth living no matter how sick I am.

My life is only worth living if I can:

☐ Communicate with family and friends
☐ Wake up from a coma
☐ Feed, bathe, or take care of myself
☐ Be free from pain
☐ Live without being hooked up to machines
☐ I am not sure

If I am dying, it is important for me to be (choose one):

☐ at home  ☐ in a hospital or other care center  ☐ It is not important to me where I am cared for

RELIGION OR SPIRITUAL BELIEFS

Is religion or spirituality important to you? ☐ No  ☐ Yes

Do you have a religion or faith tradition?

What should your doctors know about your religious or spiritual beliefs?

“Filling out an advance directive gives you an opportunity to talk about what types of treatment you’d want, before something traumatic happens.” – Olivia R.

Name

Date of Birth
Make your health care choices

LIFE SUPPORT
Life-support treatments are used to try to keep you alive. These include CPR, a breathing machine, feeding tubes, dialysis, blood transfusions, or medicine.

Put an X next to the one statement you most agree with.

If I am so sick that I may die soon, I would like my health care team to:

☐ Try all life-support treatments that my doctors think might help.
   If the treatments do not work and there is little hope of getting better, I want to stay on life-support machines even if I am suffering.

☐ Try all life-support treatments that my doctors think might help.
   If the treatments do not work and there is little hope of getting better, I do NOT want to stay on life-support machines.
   If I am suffering, I want to stop and be allowed to die gently.

☐ I do not want life-support treatments even if my doctors think they might help. I want to focus on being comfortable. I prefer to have a natural death.

☐ I want my health care representative to decide for me.

☐ I am not sure.

What other wishes are important to you?

Name                      Date of Birth
Make your health care choices
Your doctors may ask about organ donation and an autopsy after you die.

DONATING YOUR ORGANS
Put an X next to the one choice you most agree with. Donating your organs can help save lives.

☐ I want to donate my organs.

Which organs do you want to donate?
☐ any organ
☐ only (Please specify which organ(s) or tissue, etc.)

☐ I do not want to donate my organs.

☐ I want my health care representative to decide.

☐ I am not sure.

AUTOPSY
An autopsy can be done after death to find out why someone died. It’s a surgical procedure. It can take a few days.

☐ I want an autopsy.

☐ I do not want an autopsy.

☐ I only want an autopsy if there are questions about the cause(s) of my death.

☐ I want my health care representative to decide.

☐ I am not sure.

“An advance directive is really one of the best things you can leave with your family and friends.”
- Valerie F.
Sign the form

**Before this form can be used, you must:**

- Sign this form if you are at least 18
- **Have two witnesses sign the form or have it notarized by a notary public**

Sign your name and write the date.

<table>
<thead>
<tr>
<th>Signature</th>
<th>Date</th>

Address

**WITNESSES**
Before this form can be used, you must have two witnesses sign the form or a notary public notarize it.

Your witnesses must:

- Be at least 18
- Know you
- See you sign this form

Your witnesses cannot:

- Be the person you named as your health care representative
- Be your doctor or other health care provider
- Work for your medical center or health care provider
- Be related to you in any way
- Benefit financially — eligible for any money or property — after you die
- Work at the place where you live

If you do not have two witnesses, a notary public can sign on Page 14.
Sign the form
Have your witnesses complete this page.

By signing, I promise that I saw ____________________________ sign this form.

Name

He/she was thinking clearly and was not forced to sign this form.

I also promise that:

• I know this person and he/she could prove who he/she was
• I am at least 18
• I am not his/her health care representative
• I am not his/her health care provider
• I do not work for his/her health care provider
• I do not work where he/she lives
• I am in no way related to him/her
• I will not benefit financially — eligible for any money or property — after he/she dies

Get the Most Out of Your Advance Directive

TALK TO YOUR LOVED ONES
This is important. Your family members and close friends can help in your decision-making process. Remember, you are the expert about what matters most to you, and it’s best to share this information with your loved ones in advance of any unforeseen need.

TALK TO YOUR DOCTOR
Have a conversation with your doctor to make sure he/she understands your preferences and future goals for care. It’s often easiest to start with the basics. Bring this up at one of your next visits. Talk about what is important for your health and health care. Discussing the goals of treatment and care is important at any time, but especially when there has been a change in your health and/or when you are undergoing treatment for a medical condition. Your doctor and other health care providers can make sure your wishes are known and followed, but they can only do this if you have made that information available.

RECORD YOUR WISHES
Once you have chosen your health care representative, and you’ve decided on your preferences for future care or goals of care, use the forms in this brochure to record your decisions.

RETURN YOUR COMPLETED ADVANCE DIRECTIVE — WITNESSED OR NOTARIZED
Now that you have spoken to your family members and doctor, and everyone understands your wishes, the most important step is to have your wishes recorded in our medical record system. Be sure to make copies of your signed advanced directive.

KEY STEPS TO HAVE YOUR WISHES HONORED

| Complete an advance directive at age 18 | Update advance directive periodically | Diagnosed with serious illness (at any age) | Complete a POLST form with doctor | Treatment wishes honored |

REVIEW REGULARLY:
Review your health care wishes whenever any of the “Five Ds” occur:
- Decade – when you start each new decade of your life, or experience a significant life change, such as your child turning 18.
- Death – whenever you experience the death of a loved one.
- Divorce – when you experience a divorce or other major family change.
- Diagnosis – when you are diagnosed with a serious health condition.
- Decline – when you experience a significant decline or deterioration of an existing health condition, especially when you are unable to live on your own.
WHAT IS THE DIFFERENCE BETWEEN AN ADVANCE DIRECTIVE AND POLST FORM?

POLST stands for Physician Orders for Life-Sustaining Treatment. A POLST form complements an advance directive and is not intended to replace it.

ADVANCE DIRECTIVE
- For anyone 18 and older
- Provides instructions for future treatment if the individual becomes unable to make decisions for himself or herself
- Appoints a health care representative to act on the individual’s behalf if he/she loses the ability to make decisions
- Does not guide ambulance personnel or emergency medical technicians in an emergency situation
- Guides an individual’s family members and doctors in making treatment decisions in the hospital, long-term care facility or home
- Patients complete their own form; must be notarized or signed by two witnesses.

POLST
- For people with serious illness — at any age
- Provides medical orders for current treatment
- Guides actions by ambulance personnel or emergency medical technicians
- Guides inpatient treatment decisions when made available

A health care professional completes the form after having a conversation with the patient; the doctor and the patient (or health care representative) must sign the POLST form for it to be valid.

WILL MY HEALTH CARE REPRESENTATIVE BE RESPONSIBLE FOR MY MEDICAL BILLS?
No.

WHAT IF I DON’T CHOOSE A HEALTH CARE REPRESENTATIVE?
If you are too sick to make your own decisions and do not have an appointed guardian or Durable Power of Attorney for Health Care, your doctors and providers will follow Washington state law, which sets the following order of priority for people to make decisions on your behalf if you cannot:

1. Your spouse/registered domestic partner; if none then:
2. Your adult children (at least 18 years of age; decision must be unanimous if more than one child); if none then:
3. Your parents (decision must be unanimous); if none then:
4. Your adult brothers and/or sisters (decision must be unanimous)

WHAT IS PALLIATIVE CARE?
Palliative care means patient- and family-centered care that addresses physical, emotional, social and spiritual needs in addition to medical treatments, and seeks to improve quality of life for the ill person and his or her family. In addition to anticipating, preventing and treating suffering, palliative care teams preserve personal opportunities for ill people and their families.

WHAT IS THE DIFFERENCE BETWEEN PALLIATIVE AND HOSPICE CARE?
Palliative care is comprehensive specialized care for people with life-limiting illnesses who want to find relief and live their lives to the fullest. The goal is to help ease your suffering and enhance your quality of life while you continue to receive active disease treatment.

Hospice programs deliver palliative care through specialized teams that serve people with incurable conditions who have a limited life expectancy. It is considered when options for curing illness are either no longer available or desired by the patient. Hospice acknowledges that death is approaching, affirms life and regards dying as a natural process of human life.

Hospice and palliative care services can be provided in the patient’s home or place of residence.
Notice of Nondiscrimination and Accessibility Rights

Swedish Health Services and its affiliates* (collectively “Swedish”) comply with applicable federal civil rights laws and do not discriminate on the basis of race, color, national origin, age, disability or sex. Swedish does not exclude people or treat them differently because of race, color, national origin, age, disability or sex. Swedish:

1. Provides free aids and services to people with disabilities to communicate effectively with us, such as:
   (a) Qualified sign language interpreters; and (b) Written information in other formats (large print, audio, accessible electronic formats, other formats).

2. Provides free language services to people whose primary language is not English, such as: (a) Qualified interpreters; and (b) Information written in other languages.

If you need any of the above services, please contact the appropriate civil rights coordinator below. If you need Telecommunications Relay Services, please call 1-800-833-6384 or 7-1-1.

If you believe that Swedish has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with Swedish by contacting the civil rights coordinator for your service location as listed below:
