Swedish at a Glance

History
Swedish was founded more than a century ago by a physician and Swedish immigrant, Nils Johanson, M.D., with the generosity of members of our community who wanted to provide our region with the best medical care possible. What started as a 24-bed facility is now the largest not-for-profit health care provider in the greater Seattle area.

As Swedish has evolved, our vision to provide the highest-quality health care for the best value remains unchanged. And the support of our community, through the philanthropic investment of more than $18 million in 2017, continues to help us transform, giving our patients access to the latest treatments and most innovative health care available.

Swedish today
Swedish is comprised of five hospital campuses (First Hill, Cherry Hill, Ballard, Edmonds and Issaquah); ambulatory care centers in Redmond and Mill Creek; and Swedish Medical Group, a network of more than 118 primary and specialty care locations throughout the greater Puget Sound area.

Our commitment to improving the health of our region extends beyond patient care. Whether through physician clinics, health education, research and innovation or other means of outreach, we’re committed to caring for the people in our region and beyond.

2017 facts and figures
- 1,512 licensed beds
- 13,317 employees
- 3,116 physicians and allied health professionals
- 11,675 babies born
- 219,690 emergency room visits
- 67,237 inpatient admissions
- 45,392 surgeries performed
- 2,431,299 general outpatient visits (unrelated to surgery or emergency room visits)
- 118 primary and specialty care locations

NOT-FOR-PROFIT MISSION
Improve the health and well-being of each person we serve.

VISION
Demonstrate the highest-quality, best-value health care to all we serve.

VALUES
- Safety
