Swedish Multidisciplinary Cancer Conference Series (CCS)

January to December 2020

Series Goal
The series will provide a forum for case presentations and discussions of protocols/care pathways and technology-related issues in the care of patients with cancer. These forums will include prospective case discussions and no more than 25% didactic presentations.

Series Objectives
At the conclusion of these sessions, the participant will be able to:

- Describe the treatment options of various cancers which are commonly seen at Swedish Cancer Institute, including breast, genitourinary, thoracic, gastrointestinal, gynecologic, head & neck, lymphoma leukemia, neurologic, and soft-tissue sarcomas
- Identify treatment options/protocols using evidenced based guidelines
- Review pathology and/or radiology to confirm diagnosis and stage
- Participate in multidisciplinary cancer teams at Swedish Medical Center
- Compare and contrast technological options
- Discuss information that will impact patient care including genetic testing, clinical research studies and supportive services as applicable
- Participate in developing guidelines for patient care in selecting radiation therapy, surgery, or other disease management techniques
- Coordinate the evaluation, counseling and management of patients and families at risk for hereditary cancers
- Improve awareness of appropriate research treatment protocols available at Swedish Hospital

Target Audience
These conferences are designed for all specialties of physicians and multidisciplinary team members who care for patients with cancer, including Physicians, Physician Assistants, Oncology Nurses, Radiation Therapists, and Clinical Research Staff.

Evaluation and Outcomes
Participants will complete an evaluation at the end of the year in order to ensure that programs are meeting the needs of participants and impacting or changing practice and guidelines. Guest speakers will be arranged when discussion leads to the identification of special topics or research advances. The impact of this series will be measured by the satisfaction of participants, consensus development of clinical guidelines, and analysis of trends of patient accrual for pertinent clinical trials.

Needs Assessment
The need for this series of educational offerings was determined by:

- Swedish Medical Center Cancer Committee and current ACOS Commission on Cancer Program standards
- Questions raised by referring physicians
- Recent literature reviews of new protocols and findings
- Recommendations by medical and clinical staff

Planning Committee
Ralph Aye, M.D., Chair
Anna Berry, M.D.
Claire Buchanan, M.D.
Christopher Cannon, M.D.
Charles Cobb, M.D.
David Dong, M.D.
Philip Gold, M.D.
Blake Golden, M.D.
Joel Lilly, M.D.
Krish Patel, M.D.
Joseph Sniezek, M.D.
Eric Vallieres, M.D.
Dan Veljovich, M.D.
Richelle Edmonds, CME Specialist I
Danielle Posadas, CME Specialist Sr.
Nancy Thompson, MSN, RN, Director, Quality & Clinical Practices

Accreditation with Commendation
Swedish Medical Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

AMA PRA Category 1 Credits™
Swedish Medical Center designates this live activity for a maximum of 416 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Each session is designated for 1 AMA PRA Category 1 Credit™.

For sessions with **
Accuracy with Commendation
Swedish Medical Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

AMA PRA Category 1 Credits™
Swedish Medical Center designates this live activity for a maximum of 78 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Each session is designated for 1.5 AMA PRA Category 1 Credits™.
