Special Instructions:

CT

Our 64-slice CT machine utilizes ASiR technology for up to 40% less radiation with improved image resolution.

- Head
Head/Neck CTA
Sinus
Neck
Chest
Abdomen/Pelvis
Pulmonary CTA w/LE Runoff
Liver
Contrast Renal - CT IVP
Stone - CT KUB

IV Contrast? Yes No
Recent
Creatinine: Date:

MRI

Our short-length, wide bore MRI machines with a 70 centimeter circumference allows larger and claustrophobic patients to be scanned in comfort with extremely high image quality.

- Brain
Brain MRA
Neck MRA
Cervical Spine
Thoracic Spine
Lumbar Spine
Shoulder
Hip
Knee
Foot/Ankle
Abdomen
Pelvis

IV Contrast? Yes No
Recent
Creatinine: Date:

- Right Left Arthrogram
Right Left Arthrogram
Right Left
Right Left

Other MRI:

X-RAY

- Chest
Abdomen
Sinus
Cervical Spine
Thoracic Spine
Lumbar Spine
Leg Length
Scoliosis
Extremity: Right Left Wt. Bearing

Other X-Ray:

DIGITAL MAMMOGRAPHY

Our leading-edge mammography technology allows for up to 40% less radiation with higher resolution and sharper detection than traditional mammography scans.

- Screening

ULTRASOUND

Our 3D digital ultrasound equipment is state-of-the-art technology, allowing faster, higher quality scans.

- Abdomen
Pelvis
Gallbladder
Kidney/Bladder
Thyroid
Scrotum
Aorta
Inguinal Hernia
Biophysical Profile
Obstetric (LMP or EDC:)

Other U/S:

MRI

While some MRI scans can be somewhat constricting due to the narrow area where the scan takes place, our short-length, wide MRI scanner is a very comfortable open scanner, similar to a CT scanner. Our scanner offers remarkably high image quality, rivaling those produced by more powerful equipment. We also let you select your own music for your scan to increase your comfort level even farther. (No radiation is used with MRI scans.)

Please let us know if you have an aneurysm clip or any implantable electronic device in your body such as a cardiac pacemaker.

CT

The benefits of the radiation used in medical imaging outweigh the risks, it is important to use the smallest amount of radiation possible while also delivering top-quality images. Our 64-slice CT scanner has technology installed that helps deliver up to 40% less radiation per dose than traditional CT scanners. We also use detailed protocols and other techniques to ensure your radiation dose is as small as possible.

Please do not eat any solid foods within 2 hours of your examination unless your doctor has told you IV contrast will definitely not be given. If receiving oral contrast for an abdominal/pelvic exam, please arrive 30 minutes prior to the exam time.

Ultrasound

Ultrasound uses sound waves to create detailed images of the body, especially soft tissues. Our state-of-the-art equipment produces very clear 3D digital images. (No radiation is used with Ultrasound scans).

Abdomen: Please do not eat or drink anything 8 hours prior to your exam except for water and necessary medications. If you are also having a Pelvic Ultrasound, please follow those directions below as well.

Kidney & Pelvis: Please drink four 8 oz. glasses of water 1 hour prior to your appointment and keep your bladder full for your exam (this helps the sonographer better visualize the pelvic organs and bladder).

Pregnancy: For pregnancies in the first 14 weeks, please drink four 8 oz. glasses of water 1 hour prior to your appointment and keep your bladder full for your exam. For pregnancies after the first 14 weeks, it is not necessary to have a full bladder. your exam.

For your convenience, Swedish accepts most insurance plans. If you are unsure about your coverage, please contact your benefit administrator. We provide imaging services to the emergency department 24-hours a day, seven days a week. For outpatient services we offer convenient appointments, including same day scheduling for many exams.

Directions to Swedish Medical Center/Redmond Campus

From the North: Take I-405 South then merge onto 520 eastbound. Continue to Avondale Rd. Turn right at N.E. Union Hill Road. Swedish Redmond will be on your left hand side.

From the South: Take I-405 North then merge onto 520 eastbound. Continue to Avondale Rd. Turn right at N.E. Union Hill Road. Swedish Redmond will be on your left hand side.
