4th Annual Pacific Northwest Head & Neck Cancer Symposium
Update on Oral Cancer in the Era of HPV

April 11, 2014
Orin Smith Auditorium
UW Medicine, South Lake Union Campus
COURSE DESCRIPTION

This symposium has been designed to provide updates on scientific information to clinicians involved in the care of patients with oral cancer. A multidisciplinary panel of experts will discuss the most recent clinical innovations in their respective fields, including research, treatment, current trends, and controversies in the management of oral cancer in the era of HPV.

COURSE OBJECTIVES

Upon completion of this course, participants will be able to:

• Apply current guidelines, recommendations, and treatment strategies in a multidisciplinary approach to oral cancer
• Identify changing trends of oral and oropharyngeal carcinoma in the era of HPV
• Discuss novel therapies for managing head and neck cancer
• Discuss quality of life, support care, and management of toxicities involved in the care of patients with head and neck cancer
• Review treatment options through complex case discussions with a panel of experts

INTENDED AUDIENCE

This conference is designed for physicians and allied health professionals who manage patients with head, neck, and oral cancers.
